

Digital Peacebuilding Community of Practice, Africa (DP-Africa)

You are invited to be part of a pioneering community dedicated to making a tangible impact through digital peacebuilding. DP-Africa is an initiative designed for individuals passionate about using digital technologies to foster peace and reduce conflict across Africa.

Aims of the CoP:

- **Community Building:** Train and establish a robust community of digital peacebuilders skilled to explore and harness digital technologies for conflict prevention and peacebuilding in Africa.
- **Knowledge Exchange Platform:** Create a space for experience sharing, exchange, collaboration, and mutual growth.
- **Integrating Culture & Technology:** Promote the integration of African local and cultural strategies with digital peacebuilding practices.

Who Should Join?

We are seeking enthusiastic and committed individuals to form our inaugural cohort. Ideal candidates:

- Share a passion for peacebuilding using digital technologies or currently working with **digital technologies for peacebuilding** in Africa.
- Possess **reliable internet access** for active participation.
- Available to actively and fully participate in the learning and practical process.
- Demonstrate a dedication to contributing to and supporting the future growth of this initiative.

Method

The training phase will include four 3-hour online sessions. Resources will be shared for self-study and practice prior to each online session which will focus on participatory engagements and co-learning.

The first session will begin on 21 November 2024, at 16 00 CAT. Schedules for subsequent sessions will be discussed during the first session.

To express your interest please [CLICK HERE](#) to complete the form no later than 16 November 2024. Only 15 spots are available for this cohort.
